

Product Name :
Deluxe Pocket Magnifier

Product Code :
NMDIG10068

Description :

Deluxe Pocket Magnifier Used for detailed examinations by jewellers, geologists, engravers, machinists, manufacturers, dermatologists, and hobbyists. Being small (30x50mm) and light weight (14gms) it is very convenient to carry in ones pocket. The case of the lens serves the dual purpose of protecting the lens when closed and acting as handle when open. This magnifier can be provided with a spring wire clamp which enables the user to mount the magnifier on a key-chain ring. Magnification : 2x. Field of View : 20mm. Working Distance : 30mm
