Product Name :
Rebreathing Bags, Latex Free (Neoprene)

Product Code :
NMANI10035

Description :

Rebreathing Bags, Latex Free (Neoprene)

Technical Specification :

Breathing bag for artificial ventilation. Latex-free material is especially important for patients allergic to latex. Standard 22F connection port for quick connection with occlusion-free and leak-free design for lower inflation resistance and easier use. Single-patient to minimize the risk of cross-contamination.
