

**Product Name :**  
Physics Lab Instrument

**Product Code :**  
NMCBS102080

**Description :**

Physics Lab Instrument Exporter, Suppliers, Importer and Manufacturers of wide range Products. Which made the engrossing accuracy, we offer outstanding quality Physics Lab Equipment which are widely used for learning the practical concept. our array of equipment consists of physical balance, chemical balance, analytical balance and personal weighing machine. We provide them at affordable. We are Manufacture, Supplier, Exporter, Trader, Stockist, Distributor, Agent of all type of Physics Laboratory Instruments & equipments. Our Some of Physics Laboratory Instruments are At Wood Machine, Are Auxonometer, Astronomical Telescope, Bending of Beam Apparatus, Boyle's Law Apparatus, Bi-prism Assembly, Ballastic Galvanometer, Compound Pendulum, Conductivity Apparatus Lee's and Charlton, Carrey Foster Bridge, Dip Circle, Deflection Magnetometer, Fly Wheel Without Counter, Fly Wheel With Disposal Counter, Forbe's Conductivity Apparatus, G. Clamp, Hook's Law, Inertia Table, Inclined Plane Teak, K' Constant Spring , Linear Expansion, Lamp & Scale, Newton's Ring Appparatus, Optical Bench, Parallelogram of Force, Pendulum Bob, Potentiometer, Reading Telescope, Resonance Apparatus, Spirit Level, Searle's Surface Tension Balance, Searle's Thermal Conductivity, Sextent Stand, Spectrometer, Sonometer, Torsion Pendulum, Tuning Fork, Tangent Galvanometer, Viscosity Apparatus, Vibration Magnetometer, Young's Modulus, Z Pulley, Newton First Law, Newton Third Law, Pascal Law, Lift Pump, Force Pump, Bourden Guage, Ring & Ball, Electromagnet U Shaped, Ripple Tank Apparatus, Resistance Coils, Vandy Graph, Gold Leaf Electroscope, Wheatstone Bridge, Dynamo, Bell Demonstration, Bell in Vaccum.
