

Product Name :
One Side Vertical Air Flow Clean Bench

Product Code :
MED-PTH0011

Description :

One Side Vertical Air Flow Clean Bench

Technical Specification :

The quasi-closed glass damper can effectively prevent the external airflow from penetrating and the odor of the human body.
The adjustable air volume fan system ensures that the working wind speed is always in an ideal state.
Economic vertical single purification workbench.
The liquid crystal panel control with LED.
The test area is made of stainless steel for ease of operation.
Overall dimensions: 850*570*1550 (W*D*H) mm
Purification area size: 700*500*500 (W*D*H) mm
Purification efficiency: 100(U.S. Federal Standard 209E)
Weight: 85kg
The average number of colonies: ?0.5/dish, when
Noise: ?62db(A)
Half peak vibration: ?3?m(x*y*z)
Power: 220V50HZ
Power consumption: 0.3kw
The average wind speed: 0.3-0.6 m/s(adjustable)
Fitter size: 695*455*50*1(L*W*H) mm
Lighting/germicidal lamp: 15w*1*15w*1
