

Product Name :
Shaker Water Bath**Product Code :**
NMCBS11101**Description :**

Shaker Water Bath solutions offered come constructed as double walled unit chambers with glass wool insulation from all sides. Here, for superior performance, the outer MS sheet is enamel painted and inner chamber is polished with stainless steel. Further, the working chamber comes fitted with stainless steel tray with lotus clamps that make it suitable for various flasks. The presence of tubular SS sheath heater fitted below platform and controlled by digital temperature controller is also provided with timer option. Further, with temperature ranging up to 100°C, the unit has gabbled lid added drain cock that helps in providing 40 to 160 strokes per minute where the speed is controlled through use of solid regulator. The construction comprises double walled unit with inner chamber of stainless steel, outer chamber of mild steel, SS Pyramid lid, temperature range from 5°C above normal to 99.99°C and temperature control provided through use of Electronic Digital Display Temperature Indicator cum Controller. These are made available with tray capacities of 6 Flasks of 250 ml, 9 Flasks of 250 ml, 12 Flasks of 250 ml and 18 Flasks of 250 ml.
