

Product Name :
Survey Lab Equipments

Product Code :
NMCBS11145

Description :

Survey Lab Equipments We are among the renowned manufacturers and traders of precision engineered scientific instruments like Survey Lab Equipments. This instrument is widely used in various research works. Our scientific instruments are acknowledged for the striking features such as dimensional accuracy, excellent performance, precision result and long service life. We have well segregated our infrastructure into various divisions for efficient production of scientific instruments. Our all scientific instruments are available at market leading prices. Striking Features: Superior surface strength High performance Precision result Low maintenance cost Survey Lab: Survey compass staff aluminum 4 meter 4 fold Ranging rod Pantograph Abney level Telescopic alidade (complete set) Measuring chain 20 meter gunter chain Arrow Line ranger Cross staff Optical square Clinometer Planimeter Theodolite complete set with aluminum stand Drawing board 23" x 32" Drawing board 30" x 42" Plame table set complete as per ISI IOPlave with aluminum stand complete set Dumpy level with stand Prismatic compass staff aluminum stand Label machine with stand hanging rod with stand Engineering Charts: Basic Electronics Communication Electronics Electrical Engineering-1 Electrical Technology-3 Electrical Technology-4 Production-1 Production-2 Carpentry Hydraulics Fitting-1 Fitting-2 Foundry Technology Instrumentation-1 Instrumentation-2 Steam Section Metrology Refrigeration Smithy Auto-Engineering-1 Auto-Engineering-2 Welding 1 Welding 2 Engineering Drawing-1 Engineering Drawing-2 Survey Lab Equipments, Heat And Refrigeration System Exporters, Heat And Refrigeration System Manufacturers
