## Product Name : Semi Automatic Rotary Microtome

Product Code : NMCBS<u>13010</u>

## **Description :**

Semi Automatic Rotary Microtome We are offering Semi Automatic Rotary Microtome catering to the needs and requirements of our esteemed customers. This equipment is featured with a standard drive system for smooth sectioning and trimming. We have also installed LCD screen displays section, various trimming thickness range and number of sections in this microtome. There is a lockable hand wheel, interchangeable specimen clamp along with a safety alarm system and huge volume waste tray for easy operation. Semi Automatic Rotary Microtome calibrated controls assure an accurate positioning to make re-cuts possible. Specifications:  $\cdot$  Section thickness setting range: 0.25-60 µm  $\cdot$  Trimming thickness setting Range: 0.25-60 µm  $\cdot$  Setting values: 0.25-1 µm increment step 0.25 µm  $\cdot$  1-10 µm increment step 1 µm  $\cdot$  10-20 µm increment step 2 µm  $\cdot$  20-60 µm increment step 5 µm  $\cdot$  Minimum setting value: 0.25 µm Semi Automatic Rotary Microtome Instrument Exporters, Microtome Instrument Manufacturers
