Product Name :

Semi Automatic Rotary Microtome

Product Code: NMCBS13010

## **Description:**

Semi Automatic Rotary Microtome We are offering Semi Automatic Rotary Microtome catering to the needs and requirements of our esteemed customers. This equipment is featured with a standard drive system for smooth sectioning and trimming. We have also installed LCD screen displays section, various trimming thickness range and number of sections in this microtome. There is a lockable hand wheel, interchangeable specimen clamp along with a safety alarm system and huge volume waste tray for easy operation. Semi Automatic Rotary Microtome calibrated controls assure an accurate positioning to make re-cuts possible. Specifications:  $\cdot$  Section thickness setting range: 0.25-60  $\mu m$   $\cdot$  Trimming thickness setting Range: 0.25-60  $\mu m$   $\cdot$  Setting values: 0.25-1  $\mu m$  increment step 0.25  $\mu m$   $\cdot$  1-10  $\mu m$  increment step 1  $\mu m$   $\cdot$  10-20  $\mu m$  increment step 2  $\mu m$   $\cdot$  20-60  $\mu m$  increment step 5  $\mu m$   $\cdot$  Minimum setting value: 0.25  $\mu m$  Semi Automatic Rotary Microtome, Microtome Instrument Exporters, Microtome Instrument Manufacturers
